

# Chockfast Orange®

## TECHNICAL DATA

### Pourable Chocking Compound

**PR-610TCF**

#### Description

**Chockfast Orange®** is a specially formulated 100% solids, two component inert filled casting compound developed for use as a chocking or grouting material. Chockfast is designed to withstand severe marine and industrial environments involving a high degree of both physical and thermal shock. The compound is non-shrinking and has very high impact and compressive strength. Years of successful in-service experience have shown the use of **Chockfast Orange®** to be a far superior yet less expensive method of establishing and permanently retaining precise equipment alignment under extreme conditions.

**Chockfast Orange®** is approved or accepted for its intended marine use by American Bureau of Shipping, Lloyd's Register, Bureau Veritas, Det Norske Veritas, Germanischer Lloyd and most other major regulatory agencies worldwide.

#### Areas of Application

**Chockfast Orange®** was developed as a chocking or grouting compound for use under marine main propulsion machinery. The compound is used under diesel and gas engines, reduction gears, generators, compressors, pumps, bearing blocks, crane rails and numerous other applications. **Chockfast Orange®** requires no special tools.

#### Physical Properties

Coefficient of Linear Thermal Expansion: Temperature Range: 0°C to 60°C	30.8 x 10 <sup>-6</sup> /C°	ASTM D-696
Compressive Modulus of Elasticity:	3678 MPa	ASTM D-695
Compressive Strength:	131 MPa	ASTM D-695 (Mod)
Fire Resistance:	Self extinguishing	ASTM D-635
Flexural Strength:	52.6 MPa	ASTM C-580
Flexural Modulus of Elasticity:	5935 MPa	ASTM C-580
Hardness - Barcol:	40-44 fully cured 35 minimum	ASTM D-2583
Linear Shrinkage:	0.0002 mm/mm 0.02%	ASTM D-2566
Pot Life:	30 min. @ 21 °C	
Specific Gravity:	1.58	
Tensile Strength:	34.2 MPa	ASTM D-638

The information contained in this Technical Bulletin is as up to date and correct as possible as at the time of issue. The data provided should be used as a guide only as the performance of the product will vary depending on differing operating conditions and application methods.

The sale of any product described in this Technical Bulletin will be in accordance with ITW Polymers & Fluids Conditions Of Sale, a copy of which is available on request. To the extent permitted by law, ITW Polymers & Fluids excludes all other warranties in relation to this product.

## Physical Properties continued

Cure Time:	48 hours @ 15°C 36 hours @ 18°C 24 hours @ 21 °C 18 hours @ 26°C
Shelf Life:	More than 18 months
Shock Resistance:	Pass MIL-S-901 C (Navy) High Impact Shock Test, Grade A, Type A, Class 1
Shear Strength:	37.2 MPa FED-STD-406 (Method 1041)
Thermal Shock:	Pass -18°C to 100°C ASTM D-746
Vibration:	MIL-STD-167

## Estimating Data

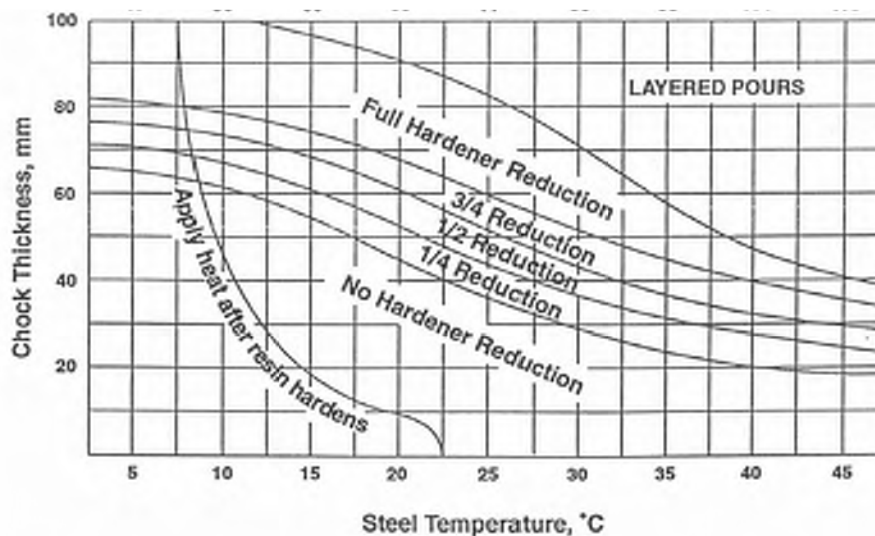

3.4 kg kit Chockfast Orange® = 1.96 Litres

## Hardener Ratio Guide

The hardener ratio may be varied to optimize the reaction and cure. Note that the resin temperature should be in the range 20° - 25°C.

The hardener reduction lines are to be read with the bottle standing upright.

The maximum amount of hardener possible should normally be used. The graph is for guidance, and the optimum amount will usually be slightly more than it shows. Dispose of excess hardener in an approved manner and do not collect the remainder of several bottles in one bottle as it may be mistaken for a complete hardener unit.

### MANUFACTURED BY

ITW Polymers & Fluids  
100 Hassall Street  
Wetherill Park NSW 2164

### QUEENSLAND DISTRIBUTOR

INTERNATIONAL TRADERS Pty Ltd  
6/286 Evans Rd  
Salisbury - BRISBANE - QLD 4107  
Phone (07) 3272 9051 Fax (07) 3272 9744

**Example: 50mm chocks, steel temperature 27°C, 3/4 reduction of hardener**

## Application Directions

Consult ITW Polymers & Fluids Technical Department for the application directions for this product.

## Storage and Shelf Life

Store in dry conditions between 10°C and 30°C, away from sources of heat and naked flames. Protect from frost. When stored in original sealed containers, the minimum shelf life is two years.

## Packaging

**Chockfast Orange®** is available in 3.4 kg packs. Each pack contains Hardener and Compound in correct proportions for use.

## Ordering information:

3.4 kg #D11900

## Safety Precautions

Avoid contact with skin and avoid breathing vapour. Wear gloves and goggles when mixing and using. Keep away from children. Provide adequate ventilation if applied in confined spaces. If poisoning occurs call Doctor or Poisons Information Centre. If swallowed DO NOT induce vomiting. Give plenty of water or milk. If skin contact occurs remove any contaminated clothing and wash affected area thoroughly with soap and water.

**TDG Code:** Hardener - UN 2735 Compound - Not Classified

## Health & Safety Information

The product is hazardous. A Material Safety Data Sheet is available from the ITW Polymers & Fluids Technical Department upon request or available on our website [www.epirez.com.au](http://www.epirez.com.au).
