Typical Physical Properties:

Colour	Grey
Dry Time	20 minutes
Recoat Time	8 hours
Flash Point	-41°C
Service Temperature	-45°C to +150°C
Salt Spray Resistance ASTM B115	1500 hours
Coverage	Up to 2 sq. metres/400 g

Chemical Resistance: Devcon Z offers very good resistance to water, oil, petrol and other chemicals and meets the following specifications:

Federal Spec. TT-P-6416 Galvanized Repair authorised by USDA for use in federally inspected meat and poultry plants.

Application Information

Surface Preparation

Use a wire brush or sandpaper to remove rust and scale from the surface to be protected. All dirt, grease, and old paint should be removed. A clean, dry surface is essential for the best results.

Mixing

Shake the aerosol can thoroughly until you hear the mixing balls loosen. You must hear the balls rattling for correct mixing to take place. Shake the spray can for approximately two minutes after the mixing balls have been loosened.

MANUFACTURED BY
ITW Polymers & Fluids
100 Hassall Street

Phone (07) 3272 9051 Fax (07) 3272 9744

Application

Make sure the aerosol spray nozzle is pointing away from you before depressing. Hold the can approximately 12 inches from the surface and spray with a sweeping motion. Allow the surface to dry completely:- 12 hours or longer.

Coverage:

Up to 2 sq. metres per 400 g can.

PRECAUTION

Use outside (above 15°C) or only in a well-ventilated area. Keep doors and windows open until fumes disappear.

For complete safety and handling information, please refer to the appropriate Material Safety Data Sheet prior to using this product.

Warranty

Devcon will replace any material found to be defective. Because the storage, handling and application of this material is beyond our control, we can accept no liability for the results obtained.
